Hello Rick,
I'm in Berkeley for a few days but will review the information request you sent this Thursday when I'm back at my office.
Thank you,
Dan Lynch
Senior Environmental Scientist (Supervisor), DTSC
(559) 297-3955

This request will supplement information gathered during EPA's August 24-28, 2015 process based inspection. I've redacted four inspection photos embedded within the information request because the facility has not yet had an opportunity to make any confidential business information claims for the inspection photos.
